Other mixed-finance transactions (via acquisition or new construction or both) may be proposed later in the Plan year commensurate with the LHA Strategic Plan. Financing may include use of regular Capital Funds and/or HUD's Capital Fund Financing Program (CFFP). CFFP/RAD involves borrowing against future flow of annual Capital Funds.

LHA plans to pursue public housing development activities and will utilize its Development Department and/or other subsidiary entities for development, financing, and the formation of a variety of ownership structures as well as utilize its management entity for the operation of public and non-public housing programs.

The Authority intends to use Capital Funds and other public and private funds to redevelop existing family and elderly developments. LHA will either self-develop or partner with a master developer for Westlake Apartments and conduct a community engagement process to arrive at a master plan for redevelopment.

LHA is also seeking a partner with extensive experience in developing and operating affordable housing. The proposed project will either be located on the 10,56-acre site located on W. 10th Street or at the 17,06-acre site at Hunter field PUD (Arbor Manor). LHA also intends to use Capital Funds and other funds to acquire and redevelop properties in and around its public housing communities.

Demolition and/or Disposition

This section describes whether HUD-approved applications by LHA to demolish or dispose (sell) public housing projects owned by LHA and subject to Annual Contributions Contracts (ACCs), or pending applications for demolition or disposition, have changed during the current plan year.

In such cases, LHA would be required to describe the housing and the number of affected units for which it will apply or has pending for demolition or disposition; and provide a projected timetable for the demolition or disposition. Information on planned and pending demolition and/or disposition efforts is provided in the following tables.

LHA has been working with residents and the City of Lakeland to define a strategy for the Cecil Gober rehabilitation project, the West Lake Apartments disposition and the Section 32 Public Housing Homeownership program. The Section 32 disposition plan for the 12 houses at Hampton Hills was approved by the Special Application Center in November 2013. The implementing agreement was executed in March 2014. LHA will amend the agreement as needed to implement the strategy. Individual houses within the Hampton Hills community may be sold to qualified residents, retained as public housing or sold to third parties in accordance with the strategy and HUD regulations.

LHA will include the vacant lots in this process as well. Specifically, the Authority plans to amend its disposition application for the 4.33-acres of land at the intersection of N_{*} Florida Avenue and W_{*} Tenth Street to allow for disposition to a third party developer. Additionally, LHA plans to submit a disposition application for the 17.3-acre tract within the Hunter field Planned Unit Development and the land located on the 10,56-acre site on W_{*} 10th Street. The sales proceeds from both properties will be used to develop, acquire, or modernize affordable housing units at other properties owned and/or controlled by LHA or its affiliates.

Project-Based Vouchers

This section describes the projected number of project-based units and general locations and how project basing would be consistent with its PHA Plan.

When funding becomes available, the Authority plans to use some of its vouchers under the Project Based Vouchers (PBV) option, as described at 24 CFR Part 983. This may be done in one of two ways.

First, LHA may issue a Request for Proposals from owners wishing to participate in the program. The criteria and procedures for such selections will be described in the RFP and in the LHA's Section 8 Administrative Plan.

Second, LHA may make non-competitive selections of owners whose projects included a competitive selection of proposals, such as housing assisted under a federal, state, or local government housing assistance, community development, or supportive services program.

The Authority may also submit a proposal under a RFP for units in its public housing portfolio or a property it may acquire under its —redevelopment authority for this purpose. The use of PBV is consistent with the overall PHA Plan which is encouraging the development of affordable mixed-use. mixed-income housing particularly in consort with broader neighborhood revitalization efforts such as the Westlake project.

LHA's PBV criteria and procedures will propose the use of these resources in ways that facilitate achievement of its overall housing goals in general and the mobilization of potential relocation resources in particular, to address the housing needs of LHA families at developments slated to be redeveloped, including, but not limited to, the Cecil Gober Villas, Dakota Park (Carrington Place) and Westlake Apartments projects and/or other similar situations.

Under the HUD Asset Management Model, some of LHA's developments are not financially sustainable because insufficient Annual Contract Contribution (ACC) subsidy is received from HUD to support their operations. LHA is currently evaluating options for restructuring the properties; possibly seeking to convert these properties to Project- based Section 8 communities. Furthermore, LHA is considering under the

LHA may project-base units within the Carrington Place Development project.

LHA plans to utilize project-based vouchers for up to 80 units within the final phase of the West Lake Apartments Low Income Housing Tax Credit project which will begin construction by the end of 2017 and be ready for occupancy in 2018.
